

UNITED STATES DISTRICT COURT
for the
Eastern District of Wisconsin

United States of America
v.

Kalen C. OSTROWSKI
(DOB xx/xx/2005)

Case No. 25 MJ 113

Defendant(s)

CRIMINAL COMPLAINT

I, the complainant in this case, state that the following is true to the best of my knowledge and belief.

On or about the date(s) of 08/17/2024 in the county of Milwaukee in the
Eastern District of Wisconsin, the defendant(s) violated:

Code Section

18 U.S.C. 2119

Offense Description

Carjacking

This criminal complaint is based on these facts:

Please see Affidavit.

AFFIDAVIT IN SUPPORT OF A CRIMINAL COMPLAINT

I, Frank Rutter, being first duly sworn, hereby depose and state as follows:

INTRODUCTION AND AGENT BACKGROUND

1. I am employed as a Special Agent with the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) and have been since 2015. As an ATF Agent, I have participated in the investigation of firearms-related offenses, including violent crimes such as armed carjackings and robberies, and narcotics-related offenses, resulting in the prosecution and conviction of numerous individuals and the seizure of illegal drugs, and weapons. As a firearms investigator, I have interviewed many individuals involved in firearm-related offenses and drug trafficking and have obtained information from them regarding acquisition, sale, importation, manufacture, and distribution of firearms and controlled substances. Through my training and experience, I am familiar with the actions, habits, traits, methods, and terminology utilized by violators of firearms law and traffickers and abusers of controlled substances.

2. I have completed approximately 26 weeks of training at the Federal Law Enforcement Training Center in Glynco, Georgia, as well as the ATF National Academy. That training included various legal courses related to constitutional law as well as search and seizure authority. Additionally, I have received training on how to conduct various tasks associated with criminal investigations, such as interviewing, surveillance, and evidence collection.

3. The facts in this affidavit come from my personal observations, training, experience, and information obtained from other agents and witnesses. This affidavit is intended to show merely that there is sufficient probable cause for the requested warrant and does not set forth all of my knowledge about this matter.

4. Because this affidavit is submitted for the limited purpose of securing a complaint, I have not included each and every fact known to me concerning this investigation. I have set forth only facts that I believe are sufficient to establish probable cause.

5. Throughout this affidavit, reference will be made to case agents. Case agents are those federal, state, and local law enforcement officers who have directly participated in this investigation, and with whom your affiant has had regular contact regarding this investigation.

6. I am submitting this affidavit in support of a Federal Criminal Complaint for **Kalen C. OSTROWSKI (w/m, DOB xx/xx/2005)** in the State and Eastern District of Wisconsin. As will be shown below, there is probable cause to believe that on or about August 17, 2024, **OSTROWSKI** committed the crime of Carjacking, in violation of Title 18, United States Code, Section 2119.

PROBABLE CAUSE

August 17, 2024 - Carjacking (Location 1)

1. Affiant has reviewed Milwaukee Police Department (MPD) reports associated with MPD IR C2408170037 which were related to a carjacking investigation. Those reports document how on August 17, 2024, MPD responded to an armed carjacking which occurred at 2609 N. Fratney Street, Milwaukee, Wisconsin (Location 1). Those reports reflect that when officers arrived, they spoke with victim, M.P. who stated he/she was working as an Uber driver when he/she had been carjacked by two unknown black males.

2. Those reports reflect that M.P. was interviewed by Detective Carloni, who reported M.P. made the following statements: M.P. explained they had been an Uber driver for approximately six years and identified their vehicle as a 2020 Black, Dodge Durango SUV with Wisconsin license plate 700XRF (VIN: 1C4SDJCTXLC262104). M.P. related they had accepted

an Uber ride request at approximately 5:15 AM (CST) on August 17, 2024, with a pickup location of 2630 N. Fratney Street in Milwaukee, Wisconsin. M.P. explained while traveling to pick up the Uber customer they were stopped at a redlight traveling East at the intersection of E. Center Street and N. Holton Street in Milwaukee, Wisconsin. At this intersection, M.P. explained they observed a black four door sedan with heavy window tints stopped at the same traffic light facing South. When M.P. received the green light to proceed East through the intersection, M.P. observed the aforementioned black sedan disregard the red traffic light, make a left turn to follow M.P. East on E. Center Street. M.P. stated they turned South on N. Fratney Street and pulled over in front of 2609 N. Fratney Street to pick up the Uber customer. At this time, M.P. explained the black sedan slowly drove by before turning West onto E. Clarke Street. M.P. recalled a “short time” later someone (Suspect 1) approached his/her vehicle after coming from the Northwest corner of N. Fratney Street and E. Clarke Street. M.P. stated Suspect 1 approached his/her vehicle with a silver handgun pointed at him/her. M.P. explained Suspect 1 knocked on the vehicle window with the handgun and demanded the victim exit the vehicle and give up the vehicle keys. M.P. explained he/she complied with the request and began walking North on N. Fratney Street away from his/her vehicle. M.P. recalled hearing Suspect 1 yell for Suspect 2 to get in the vehicle. M.P. stated they observed Suspect 2 come from the West alleyway on N. Fratney Street and enter the passenger seat of M.P.’s vehicle. Suspect 1 entered the driver’s seat, and the vehicle fled South on N. Fratney Street before turning and going West on E. Clarke Street.

3. Detective Carloni further reported that M.P. described Suspect 1 as a black male, approximately 20 years old, 5’7” to 5’8”, thin build with a short afro and a dark complexion. M.P. stated Suspect 1 was wearing a black sweatshirt with the hood cinched around their face and was armed with a silver handgun.

4. M.P explained his/her black iPhone 12 with a black and red Air Jordan case was taken in addition to their State of Wisconsin ID and \$60 in United States Currency. As of January 30, 2025, agents still believe this property to be outstanding and not yet recovered. I am aware Uber drivers utilize a cellular device to accept ride requests and must use those same devices for in-car information during the ride such as the suggested route of travel. These devices are often mounted and displayed in a manner that the passengers can view the information, and the driver can receive information handsfree. It is likely the device reported stolen by M.P. is also the device he/she utilized to conduct their Uber business.

5. Detective Carloni reported that M.P. described Suspect 2 as a black male but could not provide any further detail.

6. Detective Bongel was assigned video-surveillance follow up and reported he recovered video surveillance footage from nearby store, Riverwest Co-Op located at 733 E. Clarke Street. SA Rutter obtained a copy of these recordings and reviewed them which depicted the following: the victim's vehicle can be observed traveling South on N. Fratney Street before pulling alongside the West curb and facing South. Review of the surveillance cameras revealed the suspect's vehicle, a dark four door sedan passed the victim's vehicle traveling South on N. Fratney Street where it then turned West onto E. Clarke Street. The suspect vehicle could be seen stopping in front of 726 E. Clarke Street where two suspects (both passengers) exited the vehicle and began walking towards and then North on N. Fratney Street towards the victim's vehicle. The suspect vehicle can be further described as a black, four door sedan with window tints. The vehicle appeared to have dark wheels, and a license plate affixed to the front and rear bumpers. Below is a picture of the suspect vehicle taken from the surveillance footage.

7. That video further shows both suspects to be wearing dark clothing. The two suspects can be seen on video approaching the victim's vehicle before committing the carjacking. Suspect 1 approached the driver's side of the vehicle and could be seen raising their arm towards the vehicle as they neared. It should be noted the victim previously related to Detective Carloni that Suspect 1 pointed a firearm at them while approaching. Suspect 2 approached the passenger side of the vehicle. After depriving the victim of their property, Suspect 2 could be seen fleeing on foot back to the suspect vehicle and Suspect 1 drove the victim's vehicle South on N. Fratney Street and then West on E. Clark Street where it passed the suspect vehicle. Both vehicles traveled West on E. Clarke Street to flee the area.

August 17, 2024 – Fleeing/Eluding (Location 2 and 3)

8. Affiant further reviewed MPD reports associated with MPD IR C2408170036 which were related to a fleeing/eluding offense from that same date involving the victim's vehicle after the carjacking. Those reports reflect that MPD Squad 5340 was dispatched to assist with the aforementioned carjacking incident. Officer Roembke reported that while traveling to the site of

the carjacking with his partner Officer Gregory, they observed the black Dodge Durango headed West on W. Center Street at the intersection of N. 27th Street in Milwaukee. The driver of the Dodge Durango immediately started accelerating at a high rate of speed headed west from N. 27th Street (Location 2). MPD officers activated their emergency lights and siren to affect a traffic stop, but the driver refused to stop while accelerating to even higher speeds. The vehicle pursuit continued for 1.9 miles as the driver disregarded red traffic lights and stop signs. MPD lost sight of the Dodge Durango on N. Appleton Avenue and W. Center Street in Milwaukee, Wisconsin (Location 3). The vehicle's speed reportedly reached over 90 miles an hour and included driving on the wrong side of the road.

August 17, 2024 – FLOCK hit (Location 4)

9. On August 17, 2024, at approximately 10:41 AM (CST), the victim's vehicle was recorded by an automated license plate reader traveling North on N. 91st Street through W. Silver Spring Drive in Milwaukee, Wisconsin (Location 4). SA Rutter learned this information through a license plate query in the FLOCK system.

August 18, 2024 – Vehicle Recovery

10. On August 18, 2024, MPD responded to the area of 5722 N. 84th Street in Milwaukee, Wisconsin after receiving information that the Dodge Durango was pinging there. This information was documented in a report written by Officer Leidy under MPD IR C2408170037. The report stated upon arrival, Officer Leidy and Officer Rummel located the victim's vehicle parked directly across from 5722 N. 84th Street. The vehicle was observed to have a red dealership placard on the rear bumper and the white stripes on the hood had been removed. Officers conducted surveillance of the vehicle and observed an unknown black male subject wearing a black zip-up hooded sweatshirt and black jogging pants with a blue stripe down the exterior of both legs exit the south door of 8500 W. Fond du Lac Avenue. Officers observed the unknown black male approach the vehicle where the subject appeared to take a photo of the vehicle. The subject then re-entered into the building. Officers continued to monitor the vehicle but ultimately decided to approach and recover the vehicle. The vehicle was recovered and towed as evidence without incident. Below is an image depicting the proximity of 5722 N. 84th Street and 8500 W. Fond du Lac Avenue.

Vehicle Processing

11. On August 19, 2024, Detective Barker responded to MPD's tow lot to process the recovered vehicle with Forensic Investigator Roeglin. Detective Barker's report detailed several items of evidentiary value were recovered from the vehicle including, but not limited to, an iPhone with an unknown model, unknown serial number, contained on Milwaukee Police Department Inventory No. 24023778, Item 1. Photographs of the recovered device showed it to be blue and without a protective case. It should be noted the victim previously described their personal device as a black iPhone housed within a red and black Air Jordan branded protective case. Investigator Roeglin also obtained 7 DNA swabs and 12 latent print lifts. Those prints were compared to a database of known fingerprints and that analysis identified two such latent prints (from the driver's door window and the rear driver's side door) as that of Michael A. Johnson (DOB: XX/XX/2005).

Michael A. Johnson

12. A review of Wisconsin Circuit Court records revealed Michael Johnson received an adult felony conviction under Milwaukee County Case 2021CF000045 for violating Wisconsin

statute 940.20(1) – Battery by Prisoners. This conviction prohibits Michael Johnson from legally possessing firearms.

13. Additionally, Michael Johnson has numerous juvenile felony convictions:

- 2022JV000327 – Armed Robbery, 943.32(2)
- 2020JV000529 – Robbery with Use of Force (943.32(1)(a)), Drive or Operate Vehicle w/o Consent (943.23(3))
- 2019JV000362 – Drive or Operate Vehicle w/o Consent (943.23(3))
- 2018JV000716A – Operate Vehicle w/o Consent-Passenger (943.23(4m))
- 2018JV000716 – Robbery with Use of Force (943.32(1)(a)), Operate Vehicle w/o Consent-Passenger (943.23(4m))

14. Your affiant is aware on August 26, 2024, Detective Carloni showed a photo array to the victim which included a photograph of Michael Johnson. This event is memorialized in report associated with MPD IR C2408170037. Additionally, it should be noted the victim did not identify anyone in the photo array. Your affiant is aware one of the suspect's was previously described as having their hood up and cinched around their face during the carjacking. This manner of facial obstruction could have limited the victim's ability to get a strong look at the suspect's face during the crime.

Concerning Uber Technologies

15. On October 11, 2024, the Honorable William Duffin, U.S. Magistrate Judge in the Eastern District of Wisconsin, signed a federal search warrant for records from Uber Technologies. Those records revealed that Michael Johnson did not order the rideshare request on the morning of the carjacking incident and the ride request was ultimately canceled by the requester who

subsequently re-booked. This sequence is consistent with an uninvolved party who was seeking a legitimate ride.

Timing Advance Area Searches and Tower Dumps

16. On September 23, 2024, the Honorable Nancy Joseph, U.S. Magistrate Judge in the Eastern District of Wisconsin, signed a federal search warrant which authorized the cellular area searches and the collection of timing advance data in relation to the offenses listed above. This warrant returned thousands of lines of cellular data and information which was then analyzed to isolate only those identifiers whose records were consistent with the facts of the investigation, including being in the geographic area of more than one location. As a summary, the following locations were included in the warrant:

- a. Location 1 – 2609 N. Fratney Street, Milwaukee, Wisconsin on August 17, 2024
- b. Location 2 – Intersection of W. Center Street and N. 27th Street in Milwaukee on August 17, 2024
- c. Location 3 – Intersection of W. Center Street and N. Appleton Avenue in Milwaukee on August 17, 2024
- d. Location 4 – Intersection of North on N. 91st Street and W. Silver Spring Drive in Milwaukee on August 17, 2024

Analysis of Timing Advance Area Search Data

17. The information was analyzed by the Federal Bureau of Investigation (FBI) Cellular Analysis Survey Team (CAST) who provided information to investigators and summarized the information below as the initial identification of 414-554-3146 and 414-368-7042.

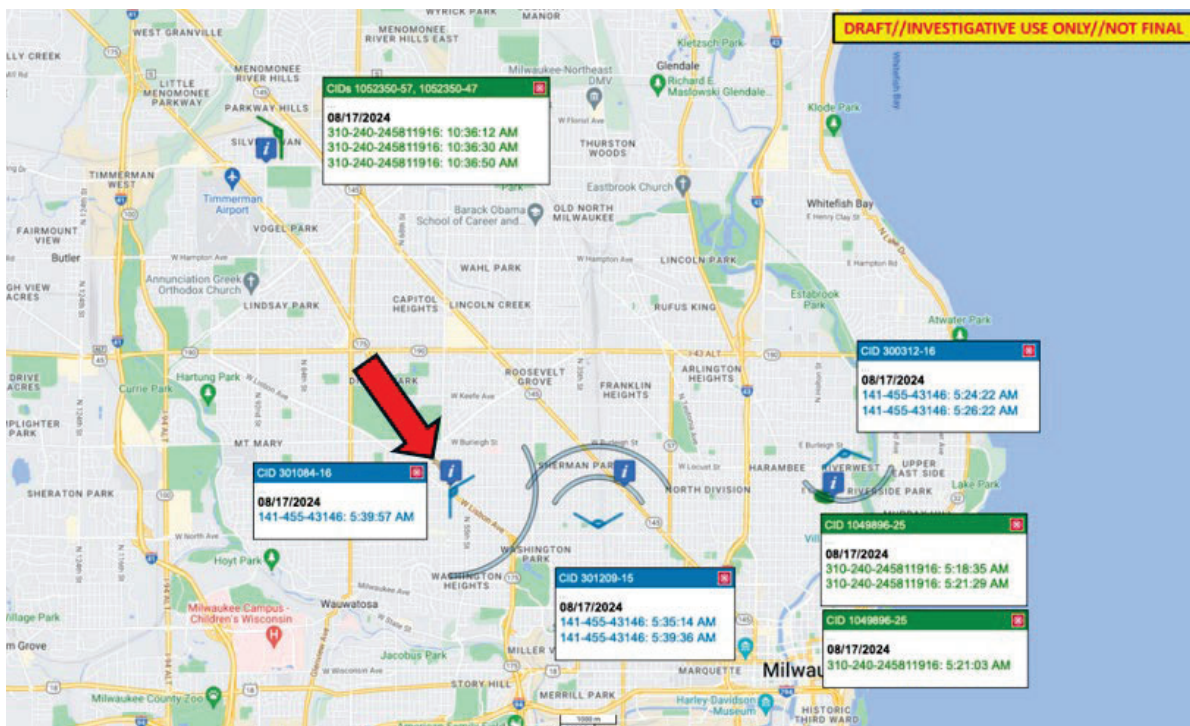

18. An initial review of the data responsive to the area search warrant identified that 414-554-3146 was the only device that matched 3 of the 4 location files. Furthermore, there were

approximately six (6) devices that matched 2 different location files. Each of the data for those six (6) devices were reviewed further by looking into the detail of the records, including such parameters as those that had records consistent with the timing of the events in each location and identifying any device that also had records in the area of initial crime scene. This additional analysis identified a device which was later revealed as 414-368-7042 after additional legal process.

414-554-3146 and Kalen Ostrowski

19. FBI Special Agent Rienenrth conducted the initial analysis of the Timing Advance records and identified a cellular device assigned telephone number 414-554-3146. The Timing Advance Records showed the following (denoted in blue in the below graphic):

- a. 414-554-3146 connected with towers in the area of the carjacking scene (Location 1) at 0524 and 0526 hours and at 0526 had a distance from tower measurement consistent with the area of the carjacking scene.
- b. 414-554-3146 then connected with towers incrementally consistent with moving in a west direction from the carjacking scene. This location information showed 414-554-3146 connecting to different towers at 0535 and 0539 consistent with that movement west towards the areas of Location 2 and Location 3.

- a. The last record in the area search for 414-554-3146 was approximately 0.92 miles and approximately from the tower and approximately four (4) minutes after MPD attempted to initiate the traffic stop described within. As noted previously, the records are consistent with travel towards the area of Location 3 which is located at W. Center Street and W. Appleton Avenue which is where MPD Officers previously reported losing sight of the fleeing victim's vehicle.

20. Special Agent Rutter reviewed MPD Officer Gregory's Squad Camera footage from the aforementioned fleeing/eluding pursuit. SA Rutter observed a black four door sedan consistent with the suspect vehicle immediately preceding the victim's vehicle traveling West on W. Center Street through N. 27th Street prior to the initiation on the pursuit. Your affiant is aware one of the carjacking suspects was a passenger inside of Kalen Ostrowski's Toyota Camry while the other suspect was driving the victim's vehicle. The below screenshots from the squad camera

footage show the suspect vehicle and the victim's vehicle traveling West on W. Center Street shortly after passing through N. 27th Street before MPD conducted a u-turn to initiate the traffic stop turned pursuit.

21. Your affiant is aware the location, date and time from the above screenshot and video is consistent with the reviewed location data placing 414-554-3146 in the same general area around the same time.

22. Your affiant believes this analysis shows the device's connections were consistent with surveillance camera and police squad camera recordings which documented the suspect vehicle and victim's vehicle's egressing West from the carjacking scene.

23. A search of public record aggregating databases commonly utilized by law enforcement revealed 414-554-3146 to be associated with Kalen C. Ostrowski (DOB: XX/XX/2005) as recently as May 2024.

24. Affiant reviewed records maintained by Wisconsin Department of Transportation which showed that Kalen Ostrowski is the registered owner of a black 2020 Toyota Camry "Night Shade" edition 4-door sedan. The vehicle is registered with Wisconsin license plate AUA2206 and VIN: 4T1G11AKXLU335910. The vehicle is registered to Kalen Ostrowski at 3260 W.

Allerton Avenue in Greenfield, Wisconsin (**Premises**) and the registration remains current as of October 31, 2024.

25. Your affiant is aware through an online VIN query that Kalen Ostrowski's Toyota Camry is equipped with a cellular antenna that is connected to AT&T's cellular network. This network connection functions regardless of whether the vehicle owner is paying for access to the connected services. A Federal grand jury subpoena to Toyota Motor North America revealed that Kalen Ostrowski's vehicle with VIN: 4T1G11AKXLU335910 is assigned IMEI number: 015267002589966.

26. Below is a screenshot of the carjacking suspect vehicle as well as a stock image from the internet of a black 2020 Toyota Camry Night Shade edition. Your affiant finds this vehicle to be consistent with that of the suspect vehicle captured by security cameras during the carjacking. It should be noted Milwaukee Police Department Det. Bongel previously hypothesized the suspect vehicle could be a black Toyota Camry in his video surveillance follow-up report.

27. Your affiant reviewed Oak Creek Police Department reports associated with case 23-018078. Kalen Ostrowski was arrested by Oak Creek Police Department on August 13, 2023 pursuant to disorderly conduct and concealed weapon violations after Oak Creek responded to a Motel 6 location investigating threats of gun violence. During this event, Kalen Ostrowski provided his telephone number as 715-348-4876. Oak Creek stopped the aforementioned Black Toyota Camry with Wisconsin license plate AUA2206 as it was leaving the scene. Officers recovered a black Springfield XPS-9 pistol bearing serial number BA678605 in addition to several loaded magazines. Present with Kalen Ostrowski during the Oak Creek incident were Tre’Vell Hayes (DOB: XX/XX/2003) and Parker Hoelscher (DOB: XX/XX/2005).

- a. During the course of Oak Creek’s investigation, Kalen Ostrowski’s mother, Stacey Barwick (XX/XX/1969) arrived and claimed ownership of the firearm stating she had left the firearm in the vehicle and did not know Kalen Ostrowski had it. Subsequent firearm tracing information revealed Stacey Barwick purchased the aforementioned Springfield pistol on December 20, 2022 from Milwaukee Tactical LLC (FFL: 3-39-14243) located at 1523 W. Ramsey Avenue in Milwaukee, Wisconsin.

28. Affiant has further reviewed Milwaukee Police Department case C2410120009 reports which reflect on October 12, 2024, Kalen Ostrowski provided his telephone number as 414-554-3146 to Milwaukee Police Department Officers during a non-fatal shooting investigation near 238 E. Knapp Street in Downtown Milwaukee. A shooting victim was admitted to St. Joseph's Hospital with multiple gunshot wounds to their legs and hands. Kalen Ostrowski was identified as the shooter and was arrested by responding officers on scene. Kalen Ostrowski was found to be in possession of a black Springfield XPS-9 pistol bearing serial number BA678605. Your affiant is aware this is the same firearm previously found in the possession of Kalen Ostrowski by Oak Creek Police Department in August 2023 which had been previously purchased by his mother Stacey Barwick.

- a. Kalen Ostrowski was charged with 1st Degree Reckless Injury under Milwaukee County case 2024CF004905.
 - b. Kalen Ostrowski provided his current address to Milwaukee County courts as 9111 W. Morgan Avenue, Apt. 4, in Milwaukee, Wisconsin as of October 16, 2024. Affiant subsequently queried We Energies regarding that address and determined that Ostrowski vacated that residence in December 2024. Kalen Ostrowski provided his forwarded address to We Energies as 3260 W. Allerton Avenue.
29. Your affiant is aware Kalen Ostrowski has no previous felony convictions.
30. Your affiant is aware the firearm recovered from Kalen Ostrowski on October 12, 2024 did not match the physical description of the firearm provided by the carjacking victim. Your affiant is aware the described silver handgun is still outstanding and is not believed to have been recovered as of January 30, 2025.

31. SA Rutter reviewed commercial license plate reader information and learned the Toyota Camry was photographed parked outside 9111 W. Morgan Avenue twenty-three (23) times between August 06, 2024 and September 29, 2024. Below is a photograph captured on September 14, 2024 depicting the vehicle parked outside 9111 W. Morgan Avenue.

32. On November 21, 2024, agents located a commercial license plate reader listing for the Toyota Camry which captured the vehicle parked on November 1, 2024 at Don Jacobs Toyota located at 5727 S. 27th Street in Milwaukee, Wisconsin.

33. On the same date, SA Rutter and SA Carlson traveled to Don Jacobs Toyota and observed the Toyota Camry parked outside the service department. Agents met with General Manager, Dustin Boundy, and learned Kalen Ostrowski dropped off the Toyota Camry at Don Jacobs Toyota on October 7, 2024, for body work. Kalen Ostrowski was documented as the vehicle owner and agents observed his mother's name, Stacey Barwick was also handwritten on the service records. Kalen Ostrowski's contact number was documented as 414-554-3146. Mr.

Boundy explained telephone number 414-554-3146 was the number utilized by Don Jacobs Toyota to communicate with Kalen Ostrowski.

34. On November 26, 2024, SA Carlson reviewed customer records from Don Jacobs Toyota, obtained via grand jury subpoena. The records, which stated they were created on July 19, 2023, state OSTROWSKI resides at “3260 W. Allerton Avenue, Milwaukee, Wisconsin”. The records indicate OSTROWSKI’s phone number is (414) 554-3146. Your affiant is aware the address for 3260 W. Allerton Avenue is easily mis documented as Milwaukee rather than Greenfield given its proximity to the Milwaukee city limits. Your affiant is also aware Google maps provides the same geo-coordinates for 3260 W. Allerton Avenue whether you type Milwaukee or Greenfield as the city for 3260 W. Allerton Avenue.

Previous Cell Tracking Search Warrant

35. On November 14, 2024, the Honorable Stephen Dries, U.S. Magistrate Judge in the Eastern District of Wisconsin, signed a federal search warrant allowing the real-time capture of location data for 414-554-3146. The warrant also included historical location data for 414-554-3146. This warrant provided information to investigators for 30 days before its expiry. Investigators learned through the use of this data that Kalen Ostrowski is the user of 414-554-3146. Additionally, agents determined 414-554-3146 regularly overnighted at both of the below listed addresses.

- a. 3260 W. Allerton Avenue, Greenfield, Wisconsin
- b. 9111 W. Morgan Avenue, Milwaukee, Wisconsin

36. It should be noted the real-time capture of location data for 414-554-3146 expired after 30 days. Since its expiry, agents developed new information related to the investigation which is outlined in subsequent paragraphs.

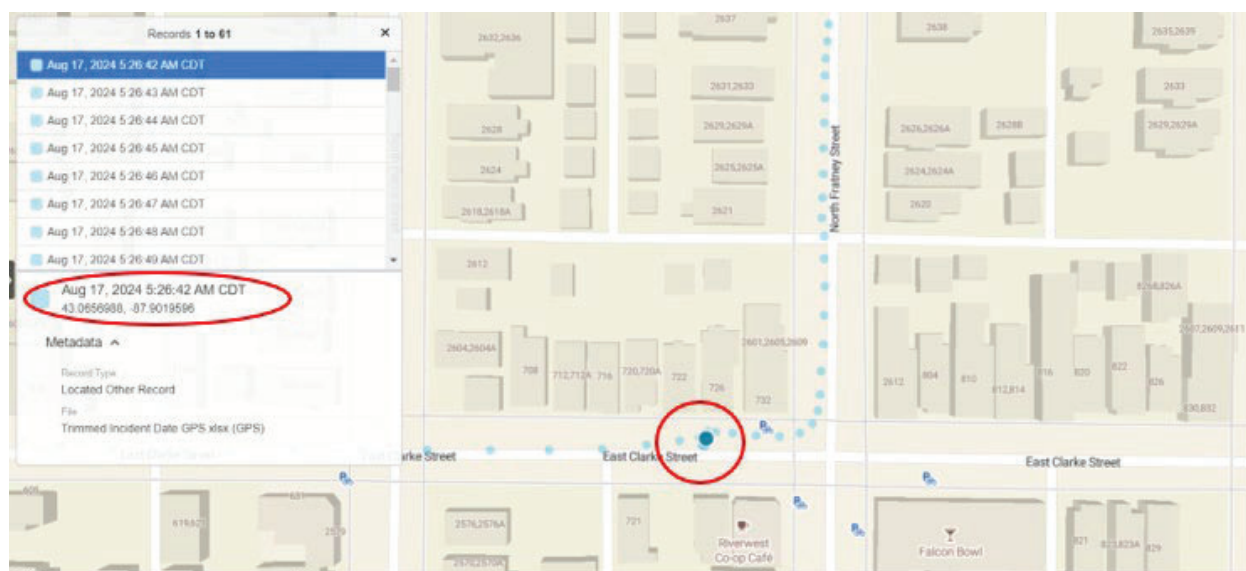

Toyota and AT&T Search Warrants

37. On December 10, 2024, the Honorable Nancy Joseph, U.S. Magistrate Judge in the Eastern District of Wisconsin, signed a federal search warrant which authorized the collection of historical timing advance data from AT&T related to the Toyota Camry bearing Wisconsin license plate AUA2206 belonging to Kalen Ostrowski. The returned cellular data and information was then analyzed by FBI SA/CAST Analyst Rienenrth who found the vehicle's historical timing advance location data to be consistent with the previous timing advance data for Kalen Ostrowski's cellular device 414-554-3146 and showed activity in the geographic areas of/around the carjacking location on August 17, 2024. Additionally, SA Rienenrth found the records were also consistent with travel West during the previously denoted times following the carjacking incident consistent with the flight path from the carjacking scene.

38. Also on December 10, 2024, the Honorable Nancy Joseph, U.S. Magistrate Judge in the Eastern District of Wisconsin, signed a federal search warrant authorizing the collection of GPS records and information associated with the Toyota Camry bearing Wisconsin license plate AUA2206 belonging to Kalen Ostrowski. The response from Toyota contained hundreds of thousands of GPS data points and corroborated the previous understanding of Kalen Ostrowski's vehicle's movements leading up to and following the carjacking incident on August 17, 2024.

39. SA Rutter reviewed those GPS records which revealed Kalen Ostrowski's Toyota Camry's onboard GPS device logged locations consistent with the vehicle's travel South on N. Fratney Street between E. Center Street and E. Clarke Street at approximately 5:26 AM on August 17, 2024 before turning West onto E. Clarke Street. The locations logged suggest that the vehicle then stopped for approximately one minute in front of 726 E. Clarke Street before continuing West

on E. Clarke Street. Your affiant is aware security cameras revealed this is approximately where the suspect vehicle was stopped and for the same approximate duration of time. See earlier paragraph detailing MPD Det. Bongel's review of security camera footage for a screenshot of the suspect vehicle parked in front of 726 E. Clarke Street. See below screenshot showing the GPS records for the Toyota Camry at approximately 5:26 AM on August 17, 2024.

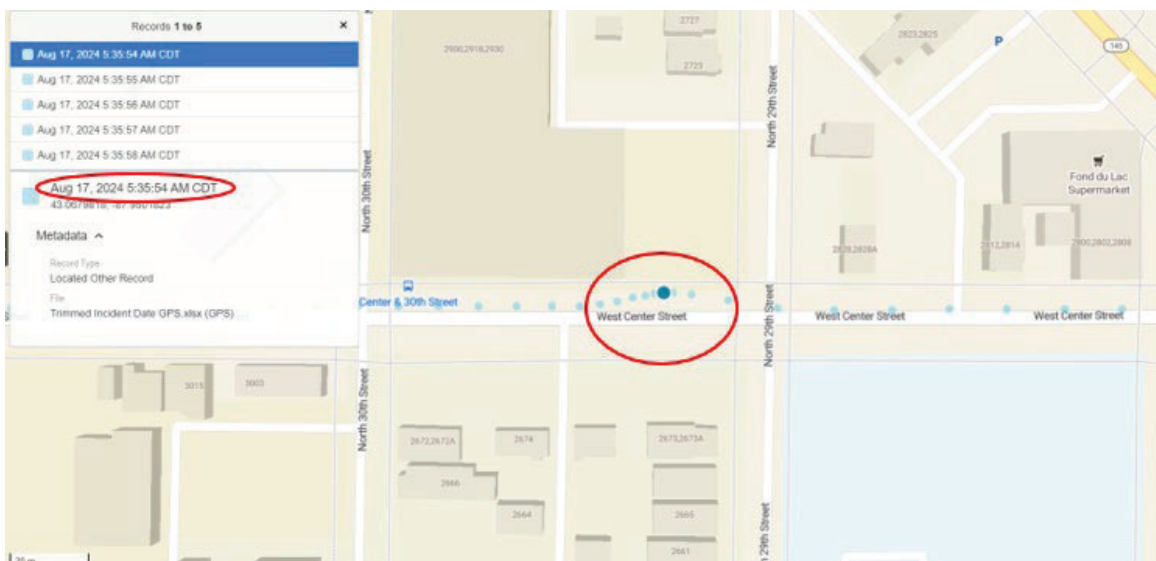

40. SA Rutter conducted further analysis of the Toyota GPS records and observed the Camry's movements, as indicated through review of the progression of GPS data points over time, shortly before the carjacking incident to be inconsistent with normal travel between two locations and instead depicted irregular driving behavior. The progression of the vehicle's GPS coordinates, as reviewed by SA Rutter, appeared to indicate the vehicle circled in the general area and did not travel in direct path between two points consistent with normal travel.

41. SA Rutter conducted subsequent analysis of the Toyota GPS records and compared them against MPD Officer Gregory's squad camera footage. SA Rutter observed the GPS records for Kalen Ostrowski's vehicle placed the vehicle at the intersection of W. Center Street and N. 27th

Street in Milwaukee, Wisconsin at approximately 5:35 AM on August 17, 2024. Your affiant is aware this location record coincides with Officer Gregory's squad camera footage which showed the suspect vehicle to be traveling in a manner consistent with the historical GPS movement records of Kalen Ostrowski's Toyota Camry.

42. GPS records also indicated that Kalen Ostrowski's Toyota Camry's GPS device appeared to stop briefly after driving West through the intersection of W. Center Street and N. 29th Street in Milwaukee. SA Rutter reviewed MPD Officer Gregory's squad camera footage again and observed the suspect vehicle to pull over and allow the squad to continue pursuing the victim's Dodge Durango. Your affiant is aware this location record coincides with Officer Gregory's squad camera footage and shows the suspect vehicle behaving in a manner consistent with the historical GPS movement records of Kalen Ostrowski's Toyota Camry. Your affiant is also aware one of the carjacking suspects was inside of Kalen Ostrowski's Toyota Camry at this time. See below screenshot from Officer Gregory's squad camera and screenshot showing the GPS movements of Kalen Ostrowski's Toyota Camry.

43. Your affiant is aware the GPS records for Kalen Ostrowski's Toyota Camry are consistent with the previous understanding of the vehicle's movements leading up to and following the carjacking incident as previously understood based on analysis of both the historical timing advance data for 414-554-3146 and the historical timing advance data for the cellular antenna

inside of his Toyota Camry.

44. SA Rutter conducted additional review of GPS records associated with Kalen Ostrowski's Toyota Camry following the events of the carjacking. GPS records revealed Kalen Ostrowski's Toyota Camry went to 8500 W. Fond du Lac Avenue at the below listed times on August 17, 2024 after the carjacking incident.

- a. 7:45 AM – Camry arrives in the area and stays for approximately 90 seconds. Further record analysis showed the vehicle remained running during this timeframe.
- b. 3:07 PM – Camry arrives in the area and stay for approximately 22 minutes. Further record analysis revealed the vehicle turned off at 3:10 PM and your affiant is aware people often exit their vehicles after turning them off.
- c. 5:05 PM – Camry arrives in the area and stays for approximately 30 minutes. Further record analysis revealed the vehicle turned off at 5:08 PM and your affiant is aware people often exit their vehicles after turning them off.

45. Your affiant is aware the carjacking victim's vehicle was recovered adjacent to 8500 W. Fond du Lac Avenue and an unknown black male from 8500 W. Fond du Lac Avenue was seen interacting with victim's vehicle shortly before its recovery by MPD on August 18, 2024. Your affiant is aware any digital images taken of the vehicle by this unknown black male could reasonably appear in electronic conversations occurring between the co-conspirators.

46. Kalen Ostrowski's Toyota Camry returned to the area of 9111 W. Morgan Avenue

in Milwaukee at approximately 11:21 PM on August 17, 2024, and no GPS records exist until 10:41 AM the following day. Further record analysis revealed the vehicle turned off at 11:24 PM.

47. A subsequent grand jury subpoena issued on January 21, 2025 revealed telephone number 414-554-3146 to still be active and assigned to Kalen Ostrowski as of January 21, 2025. Additionally, the response revealed the active device to be the same device, which was active during the carjacking incident on August 17, 2024 suggesting Kalen Ostrowski has not changed his cellular device and continues to maintain the same device he possessed during the carjacking incident. More specifically, 414-554-3146 is still assigned IMSI 310280112829120 and IMEI 358071246202922, both of which have been consistent since October 25, 2023.

48. Your affiant is aware documenting possession of the aforementioned device by Kalen Ostrowski constitutes valuable evidence related to the carjacking investigation. The continued real-time records may also assist investigators in identifying other co-conspirators. Further, based on the Target Phone's presence at locations consistent with the carjacking locations as described above and the phone's connection to Ostrowski, as well as the additional investigation detailed above, the Target Phone itself constitutes evidence related to the carjacking investigation, and the real-time location records of the cell phone will reveal the location of that evidence.

Kalen Ostrowski and Instagram

49. In January 2025, SA Rutter located images posted by Kalen Ostrowski to his Instagram page displaying vanity name "kalen.ost" which is publicly visible. SA Rutter compared the photographs posted by the user with a Wisconsin driver's license image of Kalen Ostrowski and observed the images to be consistent and representative of the same individual. SA Rutter

reviewed a post which was dated January 1, 2025 that showed Kalen Ostrowski presenting three iPhones and what appeared to be a large amount of United States currency to the camera. Your affiant is aware these types of pictures are often posted to garner status within social media communities. These images represented Kalen Ostrowski to have numerous cellular devices and access to large quantities of United States Currency wrapped with rubber bands. Two of the images are shown below. Your affiant is aware Kalen Ostrowski has no reported income in the State of Wisconsin for the entirety of 2023 and 2024.

50. Your affiant is aware Kalen Ostrowski has two iPhones attributed to him through AT&T, both of which were active during the carjacking incident on August 17, 2024 and remain active using the same devices as of the writing of this affidavit. Additionally, your affiant is aware

modern device technology, specifically Apple Inc. devices, include common features which allow the easy sharing of information, content and data between all of someone's Apple branded devices. This concept is colloquially referred to as "cloud storage."

51. Additionally, your affiant is aware through training and experience that users of cellular devices who are engaged in criminal activity commonly need to use those devices, sometimes smartphone applications, to communicate or coordinate their criminal actions. Furthermore, your affiant is aware these communications will not always present evidence thereof during review of traditional call data records. Lastly, your affiant is aware these applications often include the capability to store the content locally on the device and this content is only capable of being retrieved through forensic extraction of the device/s. The seizure and extraction of electronic information from devices associated with Kalen Ostrowski would likely yield information relevant to the carjacking investigation and other co-conspirators and their involvement. Your affiant is aware the absence of a physical device from historical location records does not absolutely preclude that device from containing evidence as those engaged in criminal activity may use one device to arrange a crime and another device to carry out the crime.

52. SA Rutter also located a temporary but publicly visible "story" posted by Kalen Ostrowski to his Instagram on January 29, 2025. In this image, Kalen Ostrowski can be seen standing in front of a bathroom mirror holding what appeared to be a large quantity of United States currency. The apparent United States currency was separated into numerous stacks, and each wrapped with rubber bands. Your affiant is aware these rubber band stacks of United States currency appear consistent with the apparent United States currency photographs Kalen Ostrowski posted on January 1, 2025 with a notable difference being there is more of it now. Please refer to

the photograph itself below.

Regarding Residential Search Warrant

53. On January 21, 2025 at approximately 3:10 PM, SA Elmer conducted physical surveillance at 3260 W. Allerton Avenue in Greenfield, Wisconsin and observed Kalen Ostrowski's Toyota Camry bearing Wisconsin license plate AUA2206 parked in the driveway.

54. On January 30, 2025, at approximately 7:00 AM, SA Rutter conducted physical surveillance at 3260 W. Allerton Avenue in Greenfield, Wisconsin and observed Kalen

Ostrowski's Toyota Camry bearing Wisconsin license plate AUA2206 parked in the driveway.

55. On February 10, 2025, at approximately 3:15 PM, SA Carlson conducted physical surveillance at 3260 W. Allerton Avenue in Greenfield, Wisconsin and observed Kalen Ostrowski's Toyota Camry bearing Wisconsin license plate AUA2206 parked in the driveway. At 3:35 PM SA Carlson observed Kalen Ostrowski's Toyota Camry leave the residence. SA Carlson noted the window tint was so dark he could not tell who was driving the vehicle. Historical location information for Kalen Ostrowski's cellular device revealed it to be located within the area of 3260 W. Allerton Avenue at 3:33PM leading up to SA Carlson's observation. Additional subsequent records revealed the device to have left the area leading agents to believe Kalen Ostrowski left 3260 W. Allerton Avenue in his Toyota Camry at 3:35 PM.

56. As of February 07, 2025, your affiant is aware the utility holder of record at 3260 W. Allerton Avenue is Kathleen Rich (XX/XX/1943).

57. On February 12, 2025, Special Agent Rutter reviewed location history information for Kalen Ostrowski's cellular device. The historical information revealed Kalen Ostrowski's cellular device has been in the area of 3260 W. Allerton Avenue during the overnight hours each night between February 1, 2025 and February 12, 2025 with the exception of February 11, 2025.

58. The silver handgun described by the victim remains unrecovered as of the writing of this affidavit. Your affiant knows firearms are a commodity often held for long periods of times and are stored at places in which the possessor exercises control and an has expectation of privacy. Additionally, your affiant is aware those legally prohibited from possessing firearms will often attempt to conceal their control of a firearm or firearm/s by having subjects who can legally possess

them make ownership claims or take physical possession at times.

Residential Search Warrant at 3260 W. Allerton Avenue

59. On February 24, 2024, ATF executed a federal search warrant at 3260 W. Allerton Avenue in Greenfield, Wisconsin. The Honorable Nancy Joseph, U.S. Magistrate Judge in the Eastern District of Wisconsin, authorized this search warrant on February 13, 2024. The warrant included Kalen Ostrowski's person, the residence located at 3260 W. Allerton Avenue and a Toyota Camry sedan bearing Wisconsin license plate AUA 2206. Your affiant knows the following subjects to be associated with 3260 W. Allerton Avenue based on review of utility information, vehicle registration, common database information and surveillance: Kalen Ostrowski, Stacey Barwick and Kathleen Rich.

60. SA Rutter and SA Carlson located Kalen Ostrowski at the Milwaukee County Safety Building at 821 W. State Street in Milwaukee, Wisconsin. Kalen Ostrowski was present in Courtroom 316 for a status conference related to his open State of Wisconsin felony 1st Degree RES case charged under 2024CF004905. After the hearing, Kalen Ostrowski was escorted to a side room by Milwaukee County Sheriff's Deputies where agents were waiting. Kalen Ostrowski was informed of the search warrant and submitted to the search of his person without incident. Recovered from his person was an Apple iPhone in a black case. No interview occurred with Kalen Ostrowski at the request of his attorney Stephen Sargent. Contemporaneous to the search of his person, the search warrant was also executed at 3260 W. Allerton Avenue.

61. During the course of the search, numerous items of evidentiary value were located. Many of these evidentiary items were found in Room 1 which contained indicia suggesting this

room belonged to Kalen Ostrowski

62. Agents located identifiers for Kalen Ostrowski in the first bedroom off the living room (hereafter, Room 1). Room 1 occupied space along the east side of the residence. In this room agents located mail and medication for Kalen Ostrowski in and on the dresser. Agents also located the spare key for Kalen Ostrowski's Toyota Camry sitting atop the dresser in Room 1. Inside Room 1's dresser drawer, agents located a Wisconsin probationary driver's license for Kalen Ostrowski which expired in April 2024. Clothing and footwear of his approximate sizing was also located in the closet of Room 1. Based on the presence of these identifiers, affiant believes Room 1 is the bedroom of Kalen Ostrowski. Importantly, Room 1 is where agents located the following:

- a. On the floor and openly in the middle of Room 1, agents located a Louis Vuitton duffle bag containing approximately 2.6 pounds (including the weight of packaging) of green leafy substance in assorted types of packaging including, but not limited to, vacuum sealed bag, large plastic bags and commercial packaging, , glass jars, small plastic jeweler bags and apparent THC gummies.
- b. Digital scale located in the dresser drawer alongside additional green leafy substance and suspected THC gummies totaling approximately 1.8 pounds including the weight of packaging. It should be noted this packaging including a plastic container, small plastic jeweler bags and glass jars which add considerable weight. Below is a collective photograph showing all suspected marijuana and THC products found in Room 1.

- c. Remington 870 Shotgun bearing serial number RAS144912 found under the bed.
- d. \$11,771.00 in United States Currency found in the closet
- e. Apple iPhone found on desk
- f. Apple iPhone found in dresser drawer

63. Lastly, agents located a vacuum sealed bag in the trashcan outside consistent in appearance with the vacuum sealed bag previously found in Louis Vuitton duffel bag which contained suspected marijuana. This vacuum sealed bag from the trash was photographed only and showed other plastic packaging stuffed inside it.

64. Your affiant is aware Kalen Ostrowski was arrested by Milwaukee Police Department on February 24, 2025 related to the discovery of the aforementioned items at 3260 W. Allerton Avenue and is currently in custody related to pending charges involving Possession with Intent to Distribute (marijuana) while armed and felony bail jumping stemming from Ostrowski's violations of the conditions of his felony bond in Milwaukee County Circuit Court case 2024CF4905.

65. During a cursory review of the Apple iPhone recovered from Kalen Ostrowski's person for evidence of the carjacking offense, agents observed numerous photographs of apparent marijuana in varying quantities. Agents observed these types of photographs were frequent and spanned at least back to August 2024.

66. On February 24, 2025, SA Carlson took the sealed bag of US Currency to

Milwaukee's High Intensity Drug Trafficking Areas (HIDTA) location. SA Carlson and SA Mason met with HIDTA investigators. SA Carlson broke the bag's seal and removed the currency for inspection in the presence of Det. Chris Conway where they set up a controlled environment. Milwaukee Police Department (MPD) Det. Naverette and his K9 Czar went on to conduct a controlled test of the currency. K9 Czar alerted on the currency for the presence of narcotics. SA Carlson and SA Mason then re-sealed the currency in a new bag and transported it back to ATF.

67. On February 24, 2025, SA Rutter and SA Linderman weighed and tested the aforementioned green leafy substance products from the Louis Vuitton duffle bag in Room 1 and found them to weigh approximately 2.6 pounds with all original packaging. SA Rutter subsequently subjected a sample of the green leafy substance to a NARK II Duquenois-Levine Reagent (NARK2005) field tests and found the substances to test positive for the presence of THC. The items were subsequently entered into ATF Property as Item 012 under Investigation 24-23360.

68. On February 24, 2025, SA Rutter and SA Linderman weighed and tested the green leafy substance and suspected THC gummies from the original packaging in which it was located within during discovery in the dresser drawer from Room 1. Agents found the substance to weigh approximately 1.8 pounds with the original packaging. It should be noted this packaging included glass jars which added considerable weight. SA Rutter subsequently subjected a sample of the green leafy substance to a NARK II Duquenois-Levine Reagent (NARK2005) field test and found the substances to test positive for the presence of THC. The items were subsequently entered into ATF Property as Item 016 under Investigation 24-23360.

Review of Ostrowski's iPhone

69. During a review of the contents of Ostrowski's devices, SA Rutter located numerous relevant content to the aforementioned carjacking investigation. The device can be more particularly described as an iPhone 15 Pro Max with IMEI 358071246202922 and Serial Number HHH46T3N6C. The Apple ID account name was kalen.ostrowski@yahoo.com and the device name was "Kalen's iphone 15 Pro Max." The device was assigned telephone number 414-554-3146.

Photographs/Videos

70. SA Rutter located images depicting OSTROWSKI with DAVIS and two (2) unknown black males. The photographs show OSTROWSKI and the unknown males posing at the rear of OSTROWSKI's Toyota Camry sedan bearing Wisconsin license plate AUA2206. The metadata contained within the images indicated they had been captured by OSTROWSKI's device in the area of 4840 N. 39th Street in Milwaukee and at 0122 hours on August 17, 2024. SA Rutter is aware the aforementioned carjacking occurred at 0530 hours on August 17, 2024.

71. SA Rutter located an image captured on August 17, 2024 at 1441 hours. The image captured OSTROWSKI's point of view as the backseat passenger of a vehicle. Visible in the photograph is branding on the driver's seat headrest depicting the characters "R/T". Also visible is an unknown black male in the front passenger seat. The metadata contained within the image indicated that the image was captured by OSTROWSKI's device in the area of 5700 N. 84th Street in Milwaukee. It should be noted this is the approximate area the carjacking victim's Dodge Durango R/T was recovered on August 18, 2024 and is immediately adjacent to 8500 W. Fond du

Lac Avenue.

72. Another photograph was captured by OSTROWSKI's device at 1510 hours depicting a black Dodge Durango with white stripes on the hood. The metadata contained within the image revealed it to have also been captured in the area of 5700 N. 84th Street in Milwaukee. It should be noted the white stripes on the hood of the victim's Dodge Durango had been removed prior to the vehicle's recovery on August 18, 2024.

73. SA Rutter located a photograph of OSTROWSKI brandishing what appears to be a Glock pistol while inside a residence. The image was captured on August 17, 2024 at 2010 hours. The metadata for the image revealed it to have been captured in the approximate area of N. 65th Street and W. Sheridan Avenue in Milwaukee.

Google Search History

74. SA Rutter located and reviewed Google search history for OSTROWSKI. It should be noted no date/time information was included in the records, but OSTROWSKI conducted the following searches sequentially:

- a. “ford explorer interceptor top speed”
- b. “dodge durango rt horsepower”
- c. “ford explorer interceptor hp”

- d. “2024 dodge durango rt top speed”
- e. “dodge durango rt top speed”
- f. “armed robbery of dodge durango Milwaukee”
- g. “black dodge durango milwaukee armed robbery.”

CONCLUSION

21. Based upon the foregoing, I believe that there is probable cause to believe that **Kalen C. OSTROWSKI** committed the crime of Carjacking, in violation of Title 18, United States Code, Section 2119.
